BUSINESS BOX

The Business Box solution module is a product that provides business solution services to individuals either looking to start a business or add new features to help their businesses adapt to the changing climate of the business world. Business Box is a simple plug and play business feature that any individual or business owner can engage with to build their business better, with plans for various needs as well as individual select service options.

Business Box is a business solutions package that is uniquely created for entrepreneurs, both those actively involved in running their own business or those just starting out. It provides access to consulting services, documentations review and development, negotiations and suggestions. If you are looking to improve your business or need help starting out or fixing a bottle neck in your business model, Business Box is for you.

The **Business Box Kit** comes with a uniquely designed solution to your business needs as well as a consultant on hand to help you through it.

This kit includes;

- **A customized business plan to your business or idea**
- **An editable business proposal for a proposed partnership or investor**
- **A pitch deck that positions your business, highlights problems you solve**
- **Access to 1 month free consultation during work hours (10 hours)**
- **Project and process advisory**

Customizable features (Ad ons)

- Business redesign and business model structure
- Extendable consulting available at a per hour billing plan
- Documentation review and redevelopment
- Select custom services (available on request)
